NEW PRODUCT ANNOUNCEMENT

Release Notes   May 11, 2020

Data Wrangler

cloudnine™
DATA WRANGLER

Demonstrating our commitment to our law firm and corporate legal clients, along with a national network of channel partners and service providers, we are excited to announce the release of **CloudNine Data Wrangler to optimize the eDiscovery workflow and help eDiscovery professionals make better decisions faster.**

Solution Overview:

Data Wrangler is the new, on-premise software solution designed with a small footprint **to inventory and prioritize collected data**, reveals detailed, actionable insight on PSTs, forensic images, directories, filetypes and data sizes.

The result provides an abundance of efficiency with **shorter project timelines** and **reduced volume of prioritized data** transferred to processing and review platforms.

Prevent workflow interruption and expedite processing:

- Use Data Wrangler to quickly detect and automate the repair of corrupt containers.

- Split large PSTs into smaller, manageable sizes and create new PSTs without Microsoft® Outlook dependencies.

Integrate easily into existing eDiscovery workflows:

- Transfer selected data automatically to CloudNine Explore™ for early case assessment and CloudNine LAW™ or many other platforms for processing and production.
